

es.deusto.client.data.Articulo

```
classDiagram
    class Articulo
    class Pelicula
    class Videojuego
    Pelicula --|> Articulo
    Videojuego --|> Articulo
```

The diagram illustrates a class hierarchy. At the top is the class 'es.deusto.client.data.Articulo'. Below it are two subclasses: 'es.deusto.client.data.Pelicula' on the left and 'es.deusto.client.data.Videojuego' on the right. A horizontal line connects the two subclasses, with a vertical line and an upward-pointing arrow from the center of this line to the 'Articulo' class, indicating that both 'Pelicula' and 'Videojuego' inherit from 'Articulo'.
